May 2023 – July 2023

AWS

Certified Cloud Practitioner

Feb 2022 – Oct 2022

Austin Coding Academy

Certification of Completion

Full-Stack Web Developer

Aug 2012 – Dec 2016

Hillsborough Community College

AS Degree in EMS

Technical Skills

JS, React, Redux, React Context, HTML, CSS, Bootstrap, Material UI, Node.js RESTful API's, Fetch API, Axios, Git, GitHub, SQL, MongoDB Responsive Design, App Development

Recent Projects

Easy News App - [Click Here To View Repository](#) / [Click Here To Watch App Demo](#)

I developed a dynamic news application using React.js, leveraging React Router for seamless navigation and efficient data fetching. My expertise in routing shines through the implementation of loaders, actions, and HTTP request handling. The user experience is prioritized with a user-friendly search function that allows filtering by category and keywords. Furthermore, I integrated Firebase for robust backend data management, enabling user authentication and a "saved articles" feature with persistent storage using the Firebase database.

Professional Experience

Customer Success Agent | SelectQuote, Overland Park, KS (August 2024 – Present)

- Engage in dynamic client relations and sales, fostering strong customer relationships and service excellence.
- Conduct in-depth health risk assessments to deliver personalized recommendations that optimize client health outcomes.
- Efficiently direct client education while facilitating access to optimal care.
- Coordinate seamlessly with clients, carriers, and providers to ensure comprehensive care and service.
- Ensure client satisfaction and guidance on plan utilization and additional services.

Freelance Web Developer | Self-Employed, USA (October 2022 – Present)

- Skillfully translate wireframe designs into compelling realities using React.
- Employ state management tools like React Context and Redux to orchestrate fluid and intuitive user interfaces.
- Utilize CSS, styled components, and other tools to produce visually stunning and responsive web interfaces.
- Proficiently design and construct versatile SQL databases tailored to diverse application needs and specifications.
- Excel in crafting concise and robust Node.js servers that connect front-end UI with back-end databases flawlessly.
- Experienced in implementing Git workflows effectively to track changes and collaborate seamlessly within teams, ensuring project integrity, stability, and continuity.

Project Manager / Sales Representative |

ProCo Roofing, Dallas, TX (December 2022 – January 2024)

Tru-Seal Roofing, Sulphur Springs, TX (March 2020 – December 2022)

Project Manager:

- Schedule and coordinate roof inspections with residential/commercial owners and insurance adjusters.
- Educate residential/commercial owners of logistics, processes, and costs involved.
- Organize and schedule construction workers for roofing and general construction projects.
- Order materials and oversee job progress from start to finish, and ensure client satisfaction after job completion.

Sales Representative:

- Lead generation activities such as door knocking and business networking.
- Skillfully organize and follow-up with clients.
- Strategically identify potential target areas of business and successfully compete for business in those areas.

Firefighter / Paramedic | Polk County Fire Rescue, Bartow, FL (March 2013 - February 2020)

Firefighter:

- Administer basic life support treatment to medical patients.
- Use and operate firefighting tools, lay and operate hose lines.
- Drive and operate firefighting vehicles (brush truck, tanker, engine, rescue) and equipment.

Paramedic: (Promoted to lead paramedic role in May 2014)

- Assess the nature and extent of illness or injury to establish and prioritize medical interventions.
- Determine treatment for patients and successfully delegate tasks to fire crew and partner on scene.
- Establish and perform appropriate medical interventions per department protocols.
